10-2221	RhB ABe 8/12 "Allegra" Revival Livery 3-Car Set

Available from

**August
2026**

Introduction:

The Rhaetian Railway (RhB) is one of Switzerland's largest private railways, operating a network of over 400 km primarily in the canton of Graubünden. Today's RhB was formed through the integration of the former Landquart–Davos Railway (LD), the Bernina Railway (BB), and the Chur–Arosa Railway (ChA), marking 100 years since the creation of this extensive network.

To commemorate this milestone — and to honor its roots as well as celebrate the 15th anniversary of its designation as a UNESCO World Heritage site — the ABe 8/12 "Allegra" was introduced in a special revival livery.

Each car of the three-car trainset features a different wrapping design representing the liveries of the three predecessor companies whose lines the Allegra now operates on. Offering a visual journey through RhB's history in a single formation, this striking appearance has earned it the nickname "Ahnenzug" (Ancestor Train) locally. The fusion of state-of-the-art rolling stock with nostalgic color schemes has attracted widespread attention.

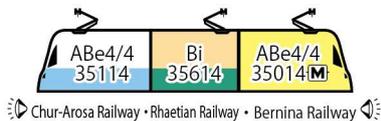

Features:

- Based on trainset 3514 in its post-2023 revival livery.
- Accurately recreates the 1,000 mm meter-gauge railway in N scale (1:150).
- Evino Blue seats
- Pre-printed front emblems and body markings.
- "R St. Moritz" destination display
- Designed for tight-radius operation, allowing passage through UNITRACK Compact R150 curves.
- Comes in special-edition packaging.

Motor:	✓ GM-3 Motor w/ flywheel
Couplings:	• Dummy couplers (front) • Glacier Express short couplers (middle)
Lights:	✓ Headlights ✓ Taillights

✳️Includes two front-end couplers for hauling passenger cars and two short couplers for Glacier Express coaches.

RhB ABe 8/12 "Allegra" 3-Car Set

Available from

August 2026

Introduction:

One of the Rhaetian Railway's (RhB) most distinctive features is that, despite being a mountain railway built to the 1,000 mm meter-gauge (narrow gauge), it does not rely on rack rails or switchbacks. Instead, through a carefully engineered alignment using tunnels, bridges, and spiral loops, it overcomes steep gradients using adhesion alone. This impressive engineering continues to captivate railway enthusiasts around the world.

The ABe 8/12 "Allegra" is a unique AC/DC electric multiple unit that combines locomotive-class high output with a low-floor body design and is capable of hauling passenger coaches. To cope with the severe 70% gradients of the Bernina Line, it is equipped with five different braking systems. From running at speeds of up to 100 km/h on main lines to operating on street-level tramways in urban areas, it demonstrates remarkable versatility.

⊗ This product is a re-run. Specifications remain the same as the previous release.

©Rhätische Bahn

Features:

- Based on trainset 3506.
- The nickname "Anna von Planta" on the side of the leading car is reproduced.
- Pre-printed front emblems and body markings.
- The destination display reads "IR Chur."
- The jumper cables and fittings on the front end come as separate parts for enhanced realism.

Motor:	✓ GM-3 Motor w/ flywheel
Couplings:	• Dummy couplers (front) • Glacier Express short couplers (middle)
Lights:	✓ Headlights ✓ Taillights

⊗ Includes two front-end couplers for hauling passenger cars and two short couplers for Glacier Express coaches.

Item No.	Item Name
10-1655	RhB "Bernina Express" with New Logo 3-Car Basic Set
10-1656	RhB "Bernina Express" with New Logo 4-Car Add-on Set

Available from

**August
2026**

Introduction:

The iconic Bernina Express tourist train connects Chur in Switzerland with Tirano in Italy. Featuring elegant panoramic windows that extend up to the roofline, it passes through the Albula and Bernina lines—both designated UNESCO World Heritage sites in 2008—and offers breathtaking views of landmarks such as Alp Grüm and Lago Bianco. In summer, bright yellow open panorama coaches are added, bringing vivid contrast to the red trainset.

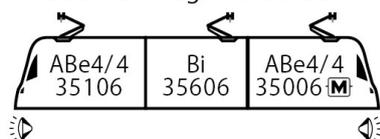

Set against the dramatic backdrop of the Swiss Alps, this scenery provides the perfect inspiration for recreating the railway in N-scale model form.

✂ This product is a re-run. Specifications remain the same as the previous release.

Features:

- Recreates the post-2018 version following the logo change.
- Faithfully reproduced interior layouts, with 2+1 seating in first class and 2+2 seating in second class.
- Compatible with interior lighting (sold separately; 11-211/11-212). Includes dedicated lighting boards for installation.
- The bookcase of the add-on set can store the contents of the basic three-car set.
